

Science & Management for Open Space Grasslands

This day-long symposium will focus on the application of science to management of open space grasslands. Speakers will provide insights on open space grasslands and the associated science to open space professionals and advisory councils, county and municipal officials, citizens, special interest groups and SRM members interested in the management of open space grassland resources. The symposium will provide knowledge and understanding of the complexities of open grassland management to all participants.

Look for registration link online at
